## Monitoring & Reporting

– when you want to know before they do.

### Managed & [Dedicated Server](#) Monitoring

1-800-HOSTING will setup hardware and service monitoring for Managed Servers and [Dedicated Servers](#). In the event of a hardware alarm, we will work to immediately identify and resolve the issue and notify you of the problem. In the event of a service alarm, we will notify [Dedicated Server](#) clients of the alarm. Automatic identification, notification and problem resolution are included for all Managed Server clients.

### Web Server Traffic Statistics

Urchin is an industry leading web analytics software used by millions of web sites worldwide. It analyzes web server and web site traffic and provides accurate and easy-to-understand reports on your visitors such as where they come from, how they use your site, what converts them into customers and much more. This service is essential for executives, marketers, webmasters and web designers.

Get [Server Monitoring](#) today and Empower your Presence.
